Professional Summary

Computer Science graduate specializing in Artificial Intelligence and Machine Learning with strong foundation in Python, SQL, data preprocessing, exploratory analysis, and machine learning. Hands-on experience working with real-world datasets using Pandas, NumPy, and scikit-learn to build end-to-end analytical and classification workflows. Familiar with data cleaning, feature engineering, model evaluation, visualization, and developing practical solutions from raw data. Strong analytical and problem-solving skills with interest in Data Engineering and Data Science.

Education

Vellore Institute of Technology **Sep 2022 – Sep 2026**
Bachelor of Technology in CSE (Artificial Intelligence and Machine Learning) *CGPA: 8.6*

Technical Skills

Programming: Python, SQL, HTML, CSS, JavaScript
Data & ML: Pandas, NumPy, scikit-learn, Matplotlib, Seaborn
Data Skills: Data Cleaning, Data Preprocessing, Feature Engineering, EDA, Data Visualization
ML Concepts: Classification, Regression, Clustering, TF-IDF, Model Evaluation, Similarity Metrics
Tools: Jupyter Notebook, Google Colab, VS Code, Git, GitHub, Excel
APIs: FastAPI, REST APIs

Projects

Sentiment Analysis Using EEG Signals 🔗 | Python, NumPy, Pandas, scikit-learn, Matplotlib

- Developed an end-to-end machine learning workflow for EEG-based sentiment and emotion classification using Python and scikit-learn.
- Performed data preprocessing, feature extraction, model training, and evaluation to identify patterns in EEG signal data.
- Compared classification models using evaluation metrics and visualized results to support model selection and interpretation.

Product Reviews Sentiment Analysis 🔗 | Python, Pandas, scikit-learn, Matplotlib

- Processed 25K+ Amazon product reviews and developed a Logistic Regression model for sentiment classification, achieving 81.6% accuracy on test data.
- Built an end-to-end data pipeline covering data cleaning, text preprocessing, TF-IDF vectorization, model training, and evaluation.
- Used confusion matrices, classification reports, and data visualization to analyze model performance and generate actionable product insights.

Experience

SmartInternz **Jul – Sep 2025**
AI / Cloud Intern

- Completed a virtual internship focused on Generative AI concepts with hands-on implementation using Google Cloud Vertex AI.
- Built sample AI applications involving API integration, prompt design, experimentation, and evaluation of model outputs.

Certifications

- Python – Infosys SpringBoard
- Data Analysis – Microsoft
- Business Analytics – Simplilearn
- Generative AI – Microsoft
- MERN Full Stack – Ethnus
- Blockchain – IBM
