

SUNNAM MEHTA

Sirsa, Haryana

+91-8295313797 Sunnam13579@gmail.com LinkedIn GitHub

Professional Summary

Computer Science graduate specializing in Artificial Intelligence and Machine Learning with hands-on experience building software, AI applications, data-driven tools, and decision-support systems. Strong foundation in Python, SQL, data structures, algorithms, OOP, DBMS, and problem solving. Experienced in taking projects from problem definition through implementation, testing, and iteration, with strong interest in software development and technology-driven business solutions.

Education

Vellore Institute of Technology Sep 2022 – Sep 2026
Bachelor of Technology in CSE (Artificial Intelligence and Machine Learning) CGPA: 8.6

Technical Skills

Programming:	Python, SQL, JavaScript
CS Fundamentals:	Data Structures, Algorithms, OOP, DBMS, Problem Solving
Data / AI:	Pandas, NumPy, scikit-learn, Generative AI, LLM APIs, Data Analysis
Development:	FastAPI, REST APIs, Git, GitHub, Jupyter Notebook
Tools:	Google Cloud Vertex AI, Google Colab, VS Code, Excel

Experience

SmartInternz Jul – Sep 2025
AI / Cloud Intern

- Built and experimented with Generative AI applications using Google Cloud Vertex AI, APIs, and prompt-based workflows.
- Tested AI workflows, evaluated model outputs, and iterated on implementations to improve practical results.

Selected Projects

Agent-Ready 100 – AI Product Ops & Research Automation | HTML, CSS, JavaScript

- Built a reproducible research system to evaluate the integration readiness of 100 applications for AI-agent workflows.
- Created a structured dataset, automated evidence checks, verification workflows, and a searchable interface for analyzing results.

Customer Churn Prediction & Retention | Python, Pandas, scikit-learn, FastAPI

- Built a decision-support system that estimates customer churn risk, explains predictions, and suggests retention actions.
- Implemented schema validation, preprocessing, model comparison, evaluation, and FastAPI-based inference.

DCM Sales Dashboard | TypeScript, Data Visualization

- Built an interactive sales dashboard to organize business data and surface actionable insights from key performance metrics.

Certifications

Python – Infosys SpringBoard	Data Analysis – Microsoft	Generative AI – Microsoft
Business Analytics – Simplilearn	MERN Full Stack – Ethnus	Blockchain – IBM
