Professional Summary

Detail-oriented and curious B.Tech student with strong fundamentals in Python, SQL, and web technologies. Comfortable with debugging, basic API concepts, data validation, and documenting workflows. Eager to contribute to a QA & Tech Support role by identifying issues, supporting users, and learning quickly in a fast-paced environment.

Education

Vellore Institute of Technology

OCT 2022 – OCT 2026

B.Tech CSE (AI & ML)

CGPA: 8.6

Bhopal, India

Key Skills

Programming & Data: Python, SQL, HTML, CSS, JavaScript

Testing & Support: Debugging, basic testing concepts, issue tracking, documentation, troubleshooting

Tools & Platforms: Git, GitHub, Jupyter Notebook, VS Code, Excel, Google Colab

Core Concepts: OOP, Operating Systems, Computer Networks, Machine Learning, API basics

Projects

Product Reviews Sentiment Analysis | Python, Pandas, scikit-learn, Matplotlib

- Processed 25K+ Amazon product reviews and trained a Logistic Regression model for sentiment classification.
- Built an end-to-end pipeline with data cleaning, preprocessing, TF-IDF vectorization, training, and evaluation.
- Used confusion matrix and classification report to analyze model performance and verify results.

Guitar Guru: Guitar Purchase Hub | HTML, CSS, JavaScript

- Built a responsive web interface to browse and filter 500+ guitar listings using price and genre filters.
- Added structured product details and video reviews to improve usability and reduce search friction.
- Organized pages using semantic HTML and CSS for maintainability and smoother navigation.

Relevant Experience

SmartInternz – Generative AI Internship

Jul 2025 – Sep 2025

- Completed a virtual internship on Generative AI concepts with hands-on Google Cloud implementation using Vertex AI.
- Built and deployed sample LLM-based applications, experimenting with prompt design and API integration.
- Documented workflows and presented results to mentors, showing accountability, communication, and quick learning.

Certifications

- Python – Infosys SpringBoard
- Blockchain – IBM
- MERN Full Stack – Ethnus
- Generative AI – Microsoft
- Data Analysis – Microsoft
- Business Analytics – Simplilearn

Additional Strengths

- Strong problem-solving attitude and persistence when issues need repeated debugging.
- Comfortable learning new tools, asking the right questions, and working through broken workflows.
- Good written communication for reporting bugs, documenting steps, and supporting teammates.
