Professional Summary

Aspiring software developer and data enthusiast with strong proficiency in Python, machine learning, and web development technologies. Experienced in building user-focused applications and analyzing real-world data to derive actionable insights. Passionate about leveraging machine learning and modern technologies to create scalable, efficient solutions for real-world problems.

Education

Vellore Institute of Technology

Sep 2022 – Sep 2026

Bachelor of Technology in CSE (Artificial Intelligence and Machine Learning)

CGPA: 8.54

Bhopal, India

Professional Skills

Languages: Python ,SQL ,HTML ,CSS

Tools: Collab, Visual Studio ,Jupyter Notebook ,Git ,GitHub ,Excel

Technologies/Frameworks: Pandas ,NumPy ,Matplotlib ,Seaborn ,scikit-learn

Core Subjects: Object-Oriented Programming (OOP) , Machine Learning , Operating Systems , Computer Networks

Projects

Guitar-Guru: Guitar Purchase Hub  | HTML, CSS, JavaScript

- Built a responsive web interface to browse and filter 500+ guitar listings using price and genre filters, improving ease of search for users.
- Integrated video reviews and detailed specs to reduce pre-purchase research friction and address common buyer questions.
- Structured pages using semantic HTML and CSS to enhance maintainability and loading experience.

Product Reviews Sentiment Analysis  | Python, Pandas, scikit-learn, Matplotlib

- processed 25K+ Amazon product reviews and trained a Logistic Regression model for sentiment classification, achieving 81.6% accuracy on test data
- Implemented end-to-end pipeline: data cleaning, text preprocessing, TF-IDF vectorization, model training, evaluation using confusion matrix and classification report.
- Visualized frequent positive and negative terms using Matplotlib to generate product-level insights useful for business decision making.

Relevant Experience

SmartInternz

Jul-Sep 2025

Internship

- Completed virtual internship on generative AI concepts with hands-on Google Cloud implementation (Vertex AI).
- Built and deployed sample LLM-based applications, experimenting with prompt design and API integration for real-world use cases.
- Applied skills on team projects, documenting workflows and presenting results to mentors, demonstrating practical efficiency and fast learning.

Certifications

- Python -Infosys SpringBoard
- BLOCKCHAIN -IBM
- MERN FULL STACK -ETHNUS
- Generative AI- Microsoft
- DataAnlysis -Microsoft
- Business Analytics -Simplilearn
