Professional Summary

AI-focused Computer Science graduate with hands-on experience building AI applications, data-driven tools, and decision-support systems. Experienced in translating problems into working prototypes, analyzing data and user-facing outcomes, and iterating on solutions using Python, SQL, APIs, and Generative AI tools. Strong interest in AI-enabled products, customer experience, product analytics, and solving business problems through technology.

Education

Vellore Institute of Technology

Sep 2022 – Sep 2026

Bachelor of Technology in CSE (Artificial Intelligence and Machine Learning)

CGPA: 8.6

Skills

Technical: Python, SQL, REST APIs, FastAPI, Git, GitHub

AI / Data: Generative AI, LLM APIs, Pandas, NumPy, scikit-learn, Data Analysis

Product: User Problem Analysis, Prototyping, Research, Problem Solving, Documentation

Analytics: Data Visualization, Model Evaluation, Business Insights, Process Improvement

Tools: Google Cloud Vertex AI, Jupyter Notebook, Google Colab, VS Code, Excel

Experience

SmartInternz

Jul – Sep 2025

AI / Cloud Intern

- Built and experimented with Generative AI applications using Google Cloud Vertex AI, APIs, and prompt-based workflows.
- Tested model outputs, iterated on prompts, and evaluated AI workflows for practical use cases.

Selected Projects

Agent-Ready 100 – AI Product Ops & Research Automation 🔗 | HTML, CSS, JavaScript

- Built a research and analysis tool to evaluate the integration readiness of 100 applications for AI-agent workflows.
- Created a structured dataset, automated evidence checks, verification workflows, and an interface for reviewing and analyzing results.

Customer Churn Prediction & Retention 🔗 | Python, Pandas, scikit-learn, FastAPI

- Built a decision-support application that predicts customer churn risk, explains predictions, and suggests retention actions.
- Implemented data validation, preprocessing, model evaluation, and FastAPI-based inference to turn analysis into a usable application.

DCM Sales Dashboard 🔗 | TypeScript, Data Visualization

- Built an interactive dashboard to organize sales data and surface actionable insights from key business performance metrics.

Additional Activities

Independent Writer: Creator of “ZWORD – Echoes of Ash”, demonstrating long-term project ownership across writing, revision, publishing, and audience engagement.

Model United Nations: Research, presentation, structured communication, and public-speaking experience.

Certificates & Training

Python – Infosys SpringBoard

Business Analytics – Simplilearn

Data Analysis – Microsoft

MERN Full Stack – Ethnus

Generative AI – Microsoft

Blockchain – IBM
