Professional Summary

AI-focused Computer Science graduate with hands-on experience building AI applications, research workflows, data-driven tools, and decision-support systems. Comfortable taking ambiguous problems from research through implementation, testing, and iteration. Experienced with Python, SQL, LLM workflows, APIs, data analysis, and rapid prototyping, with strong interest in AI products, customer problem-solving, and early-stage startup environments.

Education

Vellore Institute of Technology

Sep 2022 – Sep 2026

Bachelor of Technology in CSE (Artificial Intelligence and Machine Learning)

CGPA: 8.6

Skills

Programming: Python, SQL

AI / Data: Generative AI, LLM APIs, Pandas, NumPy, scikit-learn, Data Analysis

Product: Research, Prototyping, Problem Solving, Process Improvement, Documentation

Development: FastAPI, REST APIs, Git, GitHub, Jupyter Notebook

Tools: Google Cloud Vertex AI, Google Colab, VS Code, Excel

Experience

SmartInternz

Jul – Sep 2025

AI / Cloud Intern

- Built and experimented with Generative AI applications using Google Cloud Vertex AI, APIs, and prompt-based workflows.
- Designed prompts, tested model outputs, and iterated on AI workflows to improve practical results.

Selected Projects

Agent-Ready 100 – AI Product Ops & Research Automation | HTML, CSS, JavaScript

- Built a reproducible research system to evaluate the integration readiness of 100 applications for AI-agent workflows.
- Created a structured dataset, automated evidence checks, contradiction rules, verification workflows, and a searchable case-study interface.

Customer Churn Prediction & Retention | Python, Pandas, scikit-learn, FastAPI

- Built a decision-support system that estimates customer churn risk, explains predictions, and suggests retention actions.
- Implemented schema validation, leakage-safe preprocessing, model comparison, evaluation, and FastAPI-based inference.

DCM Sales Dashboard | TypeScript, Data Visualization

- Built an interactive sales-performance dashboard for organizing business data and extracting actionable insights from key metrics.

Additional Activities

Independent Writer: Creator of “ZWORD – Echoes of Ash”, demonstrating long-term project ownership across writing, revision, publishing, and audience engagement.

Model United Nations: Research, presentation, structured communication, and public-speaking experience.

Certifications

Python – Infosys SpringBoard

Data Analysis – Microsoft

Generative AI – Microsoft

Business Analytics – Simplilearn

MERN Full Stack – Ethnus

Blockchain – IBM
